What is NEM® and 5-LOXIN®?

► NEM® EGG SHELL MEMBRANE

NEM® is a patented egg shell membrane ingredient from Stratum Nutrition USA. NEM® is the most clinically trialled egg shell membrane with trial evidence concluding it to be a highly effective ingredient for the treatment of pain and inflexibility associated with exercise.

NEM® contains naturally occurring glycosaminoglycans such as chondroitin and hyaluronic acid, as well as three varieties of collagen for maintaining healthy joint and connective tissues.

► 5-LOXIN® BOSWELLIA EXTRACT

5-LOXIN® is a patented, clinically-studied boswellia extract for natural joint health. The principal bioactive compounds in Boswellia are boswellic acids, AKBA. Studies have shown AKBA to be a potent natural inhibitor of key enzymes involved in the breakdown of cartilage, collagen and connective tissues. 5-LOXIN® boswellia extract is well-tolerated and supported by extensive research.

NEM® is a trademark of ESM Technologies, LLC and is registered in the United States and other countries.

5-LOXIN® is a trademark of PLT Health Solutions-Laila Nutraceuticals, LLC.
